Friday 6th July 2018
22nd Shawwal 1439

Dear Parents/Guardians,

Assalamu Alaikum – ‘Peace be upon you’

Activities week Monday 16th – Friday 20th July 2018

The schools policy of not taking student out of lesson during the academic year to ensure progress and an uninterrupted programme of study, means that the whole school enrichment provision takes place in a week when the timetable is collapsed. Students take part in a range of activities selected to develop skills students wouldn't normally build during academic studies. The skills students develop during the week are much sought after by employers and further education providers such as colleges and universities. It is very important that your daughter attends and participates fully in the activities during the week. The school day will run as normal from 08:15am-15:15pm.

Sports day Monday 16th July 2018

Sports day will be held on Monday the 16th of July 2018. We have a range of activities planned for the day some of which will be delivered by external providers who will bring specialist equipment onto the school site. Students will need to arrive in their school PE kit and are also advised to bring plenty of water, a sun hat and sun cream.

Part of the car park will be cordoned off on the day and will be out of use. Please exercise due care and attention and follow directions for drop off and pick up when using the car park on the day. Your cooperation is appreciated in ensuring the safety of our girls.

Drama Production- Thursday 19th July 2018

Your daughter will be taking part in a series of workshops based on a Shakespeare play. The students will be performing some acts from the play in the afternoon. You are welcome to attend the performances, please arrive at reception by 13:45. It would be lovely for the girls to have a live audience to showcase their efforts.

If you require further information, please do not hesitate to contact me.

Yours faithfully,

Mrs Akram

Assistant Principal
