Dear Parent / Carer

Assalaamu Alaikum – ‘Peace be upon you’

Re: Tassomai

I am writing to inform you that the Science Faculty has organised for our pupils to use the online learning tool Tassomai.

Tassomai is an adaptive learning program which uses the educational principles of spacing, interleaving and targeted repetition to help students improve their grades. It works by spreading their learning into bite-sized chunks, over a long period of time as possible. As pupils answer questions the platform begins to learn where their strengths and areas of development are, allowing the site to target specific gaps in their knowledge and making it easier for our teachers to see where your daughter might need some extra support.

Pupils can create their accounts by visiting <https://app.tassomai.com/signup/code> and submitting the school code **QVB3QBTG**. They will need to use their **school email address** and **choose a password**. Please note that pupils need to create their accounts on a desktop (i.e. not mobile).

After creating their accounts, pupils can use Tassomai on any internet-enabled device, and there is an app which is completely free to download from both the Appstore and the Playstore. All pupils **must** create an account, and Class Teachers will be monitoring the pupil usage. Tassomai should be done alongside homework and revision **at least 4 times a week**.

If a pupil completes the course Tassomai guarantees that they will achieve a GCSE grade 5 or higher.

To find out more about Tassomai, please visit their website at www.tassomai.com or get in touch with them by emailing admin@tassomai.com.

If you should have any questions regarding this software, please do not hesitate to contact me at school.

Yours sincerely

Miss L Hayer

Director of Learning Science
