Dear Parent / Legal Guardian

Routine Year 8 vaccination for The Human Papillomavirus (HPV) vaccine is now being offered to boys and girls from 12 years of age in school year 8, as part of the National Childhood Immunisation Schedule,

This vaccine helps protect against cancers caused by HPV, including cervical cancer, some mouth and throat (head and neck) cancers and some cancers of the anal and genital areas. It also helps protect against genital warts. To get the best protection, your child will need two injections with the first being given in year 8 and the second in year 9
